

ALMOST OUSTED.

Demurrers Sustained in the School Board Cases.

The Court of Appeals Claims to Have Jurisdiction Under the Law.

The Constitutionality of the Law Not Passed Upon for Fear of Dire Results—The Court Intimates That the Law Under Which School Board Members Have Been Elected for Years Is Not Valid, But Will Let the Supreme Court Say Arguments to Be Made on Questions of Fact—The Entire Board in Danger if the Cases AreAppealed—Preparing to Present the Other Cases.

The Court of Appeals has jurisdiction on School Board matters and has the power to pass on the eligibility of the members, but the question of the constitutionality of the law or act of March 30, 1887, regulating School Board elections will not be passed upon. Such is the decision of the Court of Appeals rendered this morning in the quo warranto proceedings against Messrs. William Macklin, Richard Bartholdi and Henry L. Rogers. The court-room was crowded this morning when the decision was rendered and during the reading of it the deepest silence prevailed. Among the School Board Directors present were: George Bollman, Sheahan, MacLean, Hedges, Boisjoly, Kelly. The decision sustaining the demurrers of Circuit Attorney Clover to the returns of Messrs. Macklin, Rogers and Bartholdi was read first by Judge Romberg. As to the jurisdiction of the Court of Appeals in School Board matters there could be no question, as these are identical with those decided twenty years ago. The dire results which would result from a decision declaring the law or act of March 30, 1887, unconstitutional and the fact that the respondents could not plead that their own election was void and that they were not entitled to their seats prevented the court from passing on the law. They would leave that to the Supreme Court. The decision, which is full of interesting points on the law and School Board government, is as follows:

THE DECISION.

The following is in substance the decision of the court:

The relator, Ashley C. Clover, Circuit Attorney, in his official capacity filed information with the Board of Education, claiming to have been elected November 5, 1889, at an election held for that purpose, to the office of a Director of the St. Louis Public Schools, and ever since said date, and does now uniformly hold and usurp said office. The Board of Education, however, by the laws of this State at the time of said election, it was provided that no one shall be eligible to a place on the Board of Education in the city of St. Louis, who shall have paid a school tax for two consecutive years immediately preceding his election, and that the same shall not be less than two consecutive years and was therefore dis-qualified for such office and his election to said office was seen. Mr. Bollman pleaded differently and not argue the law but to argue the facts. The ruling is as follows:

MESSRS. NELSON & NEWMAN, the means of securing a school tax to Mrs. Eliza Donnelly to-day. The firm had a client, Mrs. D. Roberson, who was very anxious and determined to have the law declared unconstitutional and no argument availed to induce her to part with it at the low price offered so Mrs. Donnelly gave the price. It was an excellent deal, the firm having a small diamond and a small foot lot at No. 2613 Chestnut which was sold for \$4,000. Vacant lots in the locality sell from \$30 to \$70 a foot; the house is said to be worth about \$30,000.

AN IMPORTANT DUTY TO DISCHARGE.

The relator, Ashley C. Clover, at the real estate banquet upon which occasion he was instructed by an unimpeachable authority to advise the following: "Never let any man, who in accordance with the requirements of the resolution to be filed, prove to you that he is earning his living otherwise, and was let go. I asked him, 'What is your business?' he said, 'I have been doing so. I charge 35 cents for reading the paper 50 cents for writing it, and 75 cents for writing it on paper. I have been doing very well. I have a great plan on foot, however, which I think would be very successful. I find that the colored people do not get enough of fresh air. My plan is to establish a society called the St. Louis Humanitarians, and have large rooms where we could get the colored people together and I would teach them how to elevate their race. When the colored people are educated, they will settle the race question as they would realize their responsibility and make themselves higher in the social scale than they are now."

When the reporter left he was endeavoring to prognosticate the length of time he would be in jail and commented that he had taken his cards away from him as they would have been a help to him in doing this.

CORONER'S INVESTIGATIONS

Made Necessary by Two Fatal Accidents on Last Sunday—The Findings.

Yesterday Edward Wahrheit died at the City Hospital. On February 27 the deceased, who was but 16 years of age, was at work in a quarry in the southern part of the city when a derrick gave way. He was caught beneath the pole and badly crushed. His right arm was broken, his face was bruised and his internal organs shocked. Death was due to these injuries. The deceased was single and was buried in a new Hickory street. An inquest was held to-day.

VERDICT OF ACCIDENTAL DEATH.

An inquest was held at the office of the coroner of the Western District Christian congregation, who are going to build an edifice for worship upon the lot, which has a frontage of 100 feet, depth 215 feet. Mrs. Michael Scherf owned the lot, which was purchased by the Hammert-Anderson-Wall Real Estate Co., and they got \$125 a foot for it.

The inquest was held at the residence of J. Krebs to Wm. Schroeder. The premises have a frontage of 30 feet by 100 feet on a story brick building where distinguished editors, statesmen and steamboat men used to meet in the saloon and discuss topics of the times over a glass of beer.

The purchase of Dr. Brown's homestead, comprising nearly 200 acres of ground at Fairview, which had been in process of negotiation for some time, was finally consummated at a commissioner's sale held Monday at the Clay County Courthouse, when the property was bid for by Judge Laughlin, of the Brown Depot.

THE VINCENT BUILDING.

Nos. 1711 and 1715 Olive, temporarily occupied as a carriage repair shop, has been leased for ten years by C. Weller at \$4,500 a year. The Eagle Glass & Metal Co.

CLOCKS, GOOD CLOCKS.

Poor Clocks are nuisances, besides being expensive for repair.

THE NORTHWESTERN ROADS.

Removal of the Great Kate Disturber and Its Benefit—The Money Market.

Henry Clews says this week: The purchase of the Burlington & Northern by Burlington & Quincy has proved one of the most important railroad deals made in many months, in some respects comparing with the celebrated West Shore deal in its final consequences. The great road, after the removal of the Great Kate Disturber, is the worst existing source of irritation to the railroads in the West. Built by the directors of the Burlington & Quincy, it has been used by them only, and by the C. B. & Q. independently.

The road has been continually harassed by the C. B. & Q. and the Burlington & Northern.

The railroads association seriously crippled by its combative and reckless slassing of rates, however, the time it, after fighting to the point of exhaustion, has been obliged to sue.

A MISTAKE IN THE PLEADING.

Fortunately the question does not arise for decision under this demurrer, as the respondent does not claim to have been elected under the law of March 30, 1887, but rather than that of March 30, 1887, hence it is no defense to him to say that the law is unconstitutional, because it is not as would furnish the most conclusive reason for his cause, by any means.

In that event the election of November 5, 1889, would have been a mere void, and he must give up his title to any office and as such could give no title to the office to the respondent.

The second question raised by the first and most important is the jurisdiction of this court on the ground that the determination of the Board of President and Directors of the St. Louis Public Schools was a final and conclusive adjudication of the subject, not subject to review by the Court of Appeals.

The Court of Appeals claims to have jurisdiction under the law, but clearly that the board or the Board of President and Directors of the St. Louis Public Schools was a final and conclusive adjudication of the subject, not subject to review by the Court of Appeals.

AN ANTI-CHINESE COMBINE.

A Scheme to Drive the Mongolian Laundry out of Business.

NEW YORK, March 18.—The Master Laundry-men's Association of the States of New York and New Jersey has declared war against the Chinese laundryies, and the fight is to begin at once. The association met in this city last evening and prepared the plan of campaign. Twenty-five laundry-owners, representing capital to the amount of \$20,000,000, were present, and G. H. Barnard, President of the Troy City Laundry, presided. It was stated that in both States all the Chinese laundryies in either State are owned by six Chinese corporations, and that there is not a Chinese laundry in either State owned by an American. The Chinese laundryies six corporations, it was said, controls over 200 laundryies managed by Mongolians. The members of the association have taken measures to prevent the Chinese from getting control of the business. Not long since the six corporations, it appears, combined for the purpose of putting out of business the laundryies in New York owned by white men. For this purpose it is claimed they raised over \$1,500,000 as a preliminary fund, and the meeting last evening was to consider the plan of checking the scheme. The following, among other resolutions, were adopted:

"We, the Chinese laundryies corporations of this city take \$400,000 a year from the laundry business, most of which goes to China, as well as owing to their methods of work, competition is to be expected. We, therefore, by the action of the San Francisco authorities in expelling them from the city; be it known to the Chinese laundryies corporations at once to institute against the Chinese laundryies of this State and the State of New Jersey a vigorous war, and \$500,000 is raised within twenty days for the purpose. The three superintendents and the President of the Executive Committee. The plan of campaign is agreed upon in the resolutions it is follows:

"Whenever a Chinese laundry is located a white laundry is to be established as near it as possible. When persons are engaged in opening a Chinese laundry they are to be followed to their homes, if necessary, and induced to do so with the same amount of persistence. If necessary, the prices of the white laundry will be cut down so much that competition, even from the Chinese, will be impossible. The Chinese laundryies, if possible, will be used to induce the people to trade with the American laundryies. The Chinese laundryies will be appealed to stop the Chinese traffic."

Immediately after the meeting \$200,000 was subscribed and it was decided to make the plan of campaign a success by advertising upon their success in cutting down the Chinese trade.

One Chinese laundryman stated that if necessary \$1,000,000 would be raised to drive the Chinese out of the business and under no circumstances would there be any let up until the last laundry had closed his shop.

A DESPERATE BATTLE.

JIMMY SMITH AND BARNEY CURTIS FIGHT
FIFTEEN BLOODY ROUNDS.

Ed Smith, the Denver Heavy-Weight in the City—Theodore Winters' Racing Stable—Ed Corrigan Will Knock at the West Side Track All Season—Racing, Base Ball and Other Sports.

ACOMA, Wash., March 18.—A desperate prize fight took place near here yesterday and was witnessed by nearly one hundred sportsmen from all over the country. The principals were Jimmy Smith of Denver and Barney Curtis of Spokane Falls. They fought at catch-weights. Smith had the best of the fight which was for \$500 a side, from the start. From the first to the tenth round Curtis was knocked down twenty times, but managed to come to the front at the call of time. In the tenth, eleventh and twelfth rounds Curtis tried to rush Smith, and the latter's hurricane work won him the fight. In the fifteenth round Curtis came up looking tired. He was hammered all over the ring, and was knocked over the ropes three times. In the sixteenth round Smith again adopted hurricane fighting. Curtis could not get away from him, but was knocked down six times. He tried to hold his own, but was done for. He led out two or three times viciously, but failed to land, meantime getting a hammering which would have many a man sleep. When about out of the ring he passed out suddenly, shot out his right arm and swung a smash on Curtis' neck. It sent him to the ropes, where Smith followed him and rained blow after blow on him. Finally with a desperate rally Curtis got out in the center of the ring, threw all his strength into a right hand blow directed at Smith's jugular and felled Smith. Quick as a flash Smith landed on Curtis, knocking him through the ropes. As Curtis drew up, he got a smashing upper cut under the chin that put him to sleep and ended the mill.

ED SMITH IN TOWN.

The Denver Heavy-Weight Discloses Fighters and the California Athletic Club.

Ed Smith, the Denver Heavy-weight, who knocked out Jimmie Blanche, the Marine, about a week ago, arrived in this city yesterday morning from the Colorado metropolis on his way to the Kursaal of the Kursaal-Mudhead Combination. Smith will remain in the city a few days as the guest of the Daly Bros. He was found this morning at the place of business by a representative of the POST-DISPATCH. There is a striking resemblance in the appearance of the Colorado fighter and the Marine. Both are tall and slim. Jack Burke, Smith's fighting weight is about 160 or 170 pounds. He is a brother of Paddy Smith, who is training Jimmie Blanche at Hot Springs, where he is to spar with the Kursaal-Mudhead Combination.
